

Hello wonderful parent volunteers!

If you are interested in learning about meet set up and take down, the scoring console, and computer entry of times, please attend the training meetings. The county training meeting information is below. Please let me know if you have any questions.

Our team is very fortunate to have experienced volunteers in these positions, but it is always great to have depth in important roles! Please let me know if you attend the training, and we will be happy to make sure you get some time serving in these roles with our experienced vets who can show you the ropes!
