We are excited to invite you to participate in the **31st Annual Pentathlon Swim Meet**. This event has earned a reputation for excellence, and we are sincerely grateful for the continued support of NWAL's officials, coaches, swimmers, and families.

We would like to briefly acknowledge and clarify the technical issues experienced at last year's meet. After a thorough review, the high school's computer personnel determined that the timing console settings had been inadvertently altered by another team while testing their equipment prior to the Pentathlon. Although this prevented us from posting real-time results or distributing awards during the meet, our computer team was able to keep the event running by manually transferring data between systems—ensuring that the meet started and finished on time.

Looking ahead, we are excited to implement the **Time-Drops timing system** to enhance accuracy and streamline the scoring process. Our goal is to give every swimmer the best chance to achieve precise times while operating the meet efficiently. We will be using the Time Drops system throughout the season at our home swim meets, so our team will be well-prepared and confident in its use. In addition, skilled technical support will be on hand during the meet to assist as needed. As a backup, we are ready to transition to the school's **Daktronics timing system**, ensuring the meet proceeds smoothly with minimal disruption in the unlikely event of any technical issues.

Time standards remain unchanged from last year. In accordance with NWAL rules, **time trial results will be accepted** if no official time has been established. These guidelines are designed to give NWAL's youngest swimmers greater opportunities to qualify for and participate in one of the league's most exciting and challenging events.

Please mark your calendars for **Sunday, June 8, 2025**. We look forward to hosting an outstanding meet and hope you'll join us for a memorable celebration of swimming excellence.
