

SwimTopia

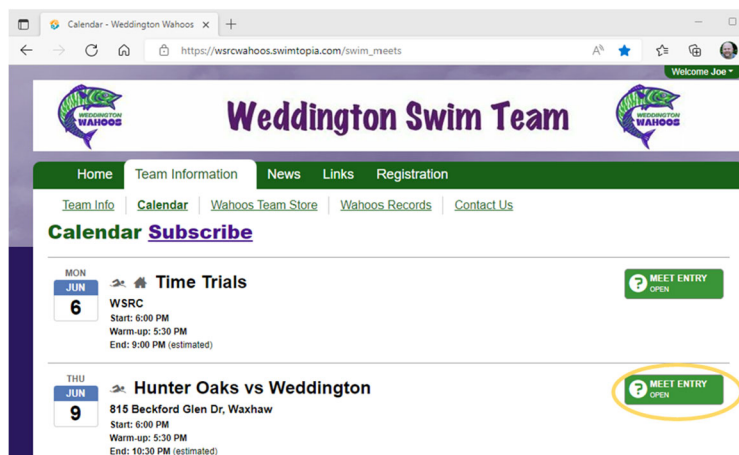

SwimTopia Communication

The Wahoos make use of **SwimTopia** for information and communication regarding the swim team (Wahoos' [Swimtopia website](#)). You've already used Swimtopia when you registered your swimmer(s) for the team. You will continue to use SwimTopia for communication, declaring your swimmer for meets and other events and for signing up for volunteer jobs. If you install the Swimtopia Mobile app for Andriod or iPhone you can use your phone for alerts, meet entries and follow along live at meets for events/heats and scores as they are recorded.

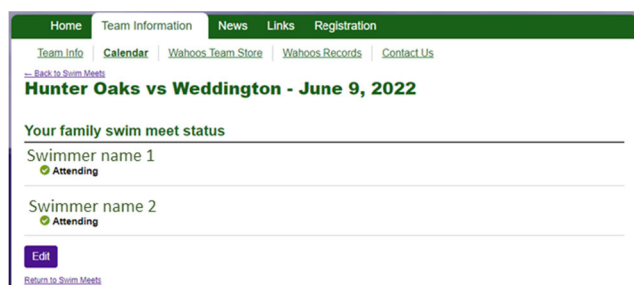

RSVP For Meets

To declare your swimmers' availability for swim meets, go to the Wahoos' [Swimtopia website](#) or use the Swimtopia app from your phone. Once you declare your swimmer as attending the coaches will be able plan and assign individual and relay events for swimmers who are attending a given meet.

From the website go to the *Calendar*. Find the meet you want to RSVP for and click "Meet Entry."

Or from the Swimtopia Mobile app, locate and touch the meet you want to signup for. Then click "Meet Signup." You will see the status for your swimmer(s). Next click "Edit."

Next for each swimmer select "Not available" or "Available" as desired and then click "Save."

Sign-up for Volunteer Jobs

Similarly, you will sign up for volunteer jobs using Swimtopia but going to a given meet or event and clicking "Job Signup" and selecting the available position you wish to fill.
