

RAPPAHANNOCK SWIM LEAGUE

TIME DROPS TRAINING

Webinar:	RSL Time Drops Training
Held By:	Time Drops® Wireless Swim Timing System

Highlights

- Just push the button!
- Multiple start options.
- Touch screen control.
- Hands-off operation.

Set up in minutes

No wires or harnesses. No heavy console.

- Just pass out the color coded lanyards with the buttons to the timers
- Flexible configuration: traditional 3-button operation, or 2 or even just 1 for informal meets
- Support for any number of lanes up to 10
- Wireless start adapter can be mounted semi-permanently to your starter system
- Wireless scoreboard connection
- Your swimming timing system can be set up in minutes

For the timers.

Just don't take them with you as you leave!

- Single-button operation: Just push the button as the swimmer touches the wall
- Races are started centrally by the starter, only push as the race finishes
- No need to use a phone, just pass the button to the next timer when you change shifts
- All buttons are managed centrally from the controller. Nothing to configure, pair or set up
- Easily move to the far end of the pool for short races
- Runs for years on a single coin cell
- Soft-touch button with well defined tactile feedback

- Waterproof and lightweight (~ 1 oz)
- Color-coded, comfortable lanyards
- No on or off switch, power is managed automatically
