Making sure our swimmers get to where they need to go for a swim meet.

Please clearly write their event/heat/and lane on the hands. 7-8 and under have marshalls that will help get our swimmers to their lanes but some of the older swimmers are having a bit of trouble. This will get easier as the season goes on.

If your swimmer is not on the blocks when the event is called, the race will start without them. We are asking every parent to help make sure that their swimmer(s) are paying attention and are where they need to be prior to their race. Thank you.

If you are working please ensure that you are on time and check in with Rick on the pool deck
