RSM Board Meeting
All members present

Status of club - running lean - cutting back on pumps and electricity

Swim team - best case scenario is starting May 4. June is more likely - ideally can do June and July. Want to do something for the season as long as we get the okay. Expect a transition in season - can't have 400 people at the pool at one time - will need to plan for that.

Financials - have gotten about 1/3 paid of members so far, 2/3 outstanding. Hoping things will come in by April

Need to have pumps running to keep mosquitos at bay, costs about \$6k to run the pool without any use. Aren't paying lifeguard expenses at the moment, can cut back PG&E where possible. Where are places to bring in revenue - auction, buy in parties

Lifeguards being interviewed over Zoom to hopefully get people in place so when we do open, we have the ball rolling

Team is committed to paying Christian his salary for the season regardless of what happens

Working on getting a loan for the resurfacing - getting quotes from lenders, and also looking into business stop loans

Incentivize people to pay now - grandfather in membership fees for next year, other ways to get people to pay?

Where's miguel?

Virtual dry land

Buy in parties online

Facebook interactive ideas

Tile wall - paint your tile kits?

Tarps we ordered are being put on hold
