

Pool Layout / Seating Arrangements:

See accompanying Pool Layout Map. The bleachers at UT have different seating capacities. Some will hold 25 people; others will hold 40 people. The following sections hold 25: 1A, 4A, 7A, 8A, 11A, 11B, 9B, 7B. The remaining bleacher sections hold 40. Section 1B, 3B & 5B will hold 30 kids each. Section 2B, 4B & 6B is floor seating—(However, folding chairs have been ordered to allow some chair seating.)

Please print the map and mark your sections for each session; give to the age- group parents who are escorting your swimmers to the deck so they can find their way to their assigned team area. (The pool map also shows the direction of traffic flow during the sessions.)

2012 Comments: We have approximately 700 seating spaces for the 7-10 session. Based on registrations and expected participation of 85%, we expect 607 swimmers in this session. *If your team and another have the same seating assignment, it means that you're sharing a section of the bleachers.* There are not sufficient sections to allow every team its own section; hence sharing is necessary.

Please be good neighbors: if the team next to you is cramped in, and you have a little extra space, let them "encroach".

If your team and another have the same seating assignment, it means that you're sharing a section of the bleachers. There are not sufficient sections to allow every team its own section; hence sharing is necessary.

There should be ample space to accommodate this session, assuming a participation rate similar to previous years.
